Re: Protest Res. No. 163 (2016)

Mr. Chairman, I am submitting this letter as my formal protest of Res. No. 163 (2016) that was passed in March Council (3-3-16). I feel that there wasn't enough information provided for us to pass the resolution that we did. We need to sit down and meet with the Director of Dora Reed and have the expectations and comparisons explained to us thoroughly, before we take away the state licensing requirements. I have many questions that were left unanswered as I believe many others may have as well.

Please accept this as my formal protest.
