

Tribal Council,

Today, we have yet to come to an agreement on the future status of the Tribal entity Qualla Housing Authority and with a continued need to focus on additional Housing and Services I would like to withdraw the current resolution on the floor to dissolve the current TDHE and focus on our current and future needs for our Tribe

I want to make sure that the Legislative body, and the public is fully aware of the financial status of QHA, however we will continue to serve applicants thru this entity of the Tribe and business will continue, while making the best use for the Federal Funding we receive for QHA.

Please keep in mind that you the legislative body will soon need to make a decision on the future of QHA

I look forward to building out new housing programs and more housing opportunities for our people with your support in the near future.

Mr. Chairman, as stated I would now like to request that our resolution be withdrawn.

Thank you

Travis K Smith

Secretary of Housing
